

A HIGHER °DEGREE OF SAFETY

Here at HarbisonWalker International (HWI) we take safety seriously. In fact it is our mission to ensure our employees leave their jobs each day in the same condition that they came into work. Now, with key partnerships in place, HWI is proud to extend our safety mantra to all of our customers and partners. HWI is proud to supply high quality, industry leading safety and personal protective equipment (PPE) products to the marketplace. With access to thousands of products in all categories of personal and industrial safety HWI can help you keep yourself and your people safe.

Respiratory Protection

According to the Occupational Safety and Health Administration, an estimated 5 million workers are required to wear respirators in 1.3 million workplaces throughout the United States. When properly using respirators, workers can be protected from a variety of environments including harmful dusts, fogs, gasses, vapors or insufficient oxygen environments.

Whether your need is for a disposable dust mask respirator, air purifying half or full face mask, replacement filter cartridges, or any other respiratory product needs, HWI has the products to keep you and our people safe. Check out some of our latest respiratory product listings through our products page on our website.

GLOBAL SOURCING CENTER NETWORK

The products you need, when you need them. HWI delivers like a pro thanks in part to our 30 Global Sourcing Centers (GSC) strategically located across North America. Just like our industry leading refractory materials, HWI's safety and PPE products are available through any one of our local GSCs. Check us out online to find GSC locations, or call our toll-free number at the bottom of the page to immediately be connected to the global sourcing center nearest you.

North 7700 half mask, North 5400 full mask and North organic vapor w/P100 filter cartridges are among the respiratory products offered by HWI.
