SAFETY DATA SHEET

1. Identification

Product identifier
LO-ABRADE GR PLUS; LO-ABRADE GR PLUS WF

Other means of identification
Brand Code
5938, 5939, 427C

Recommended use
For Industrial or Professional Use Only

Recommended restrictions
Users should be informed of the potential presence of respirable dust and respirable crystalline silica as well as their potential hazards. Appropriate training in the proper use and handling of this material should be provided as required under applicable regulations.

Manufacturer/Importer/Supplier/Distributor information

Manufacturer
Company name
HarbisonWalker International
Address
1305 Cherrington Parkway, Suite 100
Moon Township
Pennsylvania
15108
US
Telephone
General Phone: 412-375-6600
Website
www.thinkHWI.com
Emergency phone number
CHEMTREC 24 HOUR 1-800-424-9300

Supplier
Not available.

2. Hazard(s) identification

Physical hazards
Not classified.

Health hazards
Carcinogenicity
Category 1A
Specific target organ toxicity, repeated exposure
Category 1

Environmental hazards
Not classified.

Label elements

Signal word
Danger

Hazard statement
May cause cancer. Causes damage to organs through prolonged or repeated exposure.

Precautionary statement

Prevention
Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe dust/fume/gas/mist/vapors/spray. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection.

Response
IF exposed or concerned: Get medical advice/attention.

Storage
Store in a manner to minimize airborne dust.

Disposal
Dispose of contents/container in accordance with local/regional/national/international regulations.

Other hazards
None known.

Supplemental information
None.

3. Composition/information on ingredients

Mixtures

<table>

Material name: LO-ABRADE GR PLUS; LO-ABRADE GR PLUS WF
5938, 5939, 427C  Version #: 01  Issue date: 06-25-2018
4. First-aid measures

Inhalation: Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact: Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact: Rinse with water. Get medical attention if irritation develops and persists.

Ingestion: Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed: Prolonged exposure may cause chronic effects.

Indication of immediate medical attention and special treatment needed: Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.

General information: IF exposed or concerned: Get medical advice/attention. If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media: Use fire-extinguishing media appropriate for surrounding materials.

Unsuitable extinguishing media: Not available.

Specific hazards arising from the chemical: Not applicable.

Special protective equipment and precautions for firefighters: Not available.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures: Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up: Stop the flow of material, if this is without risk. Following product recovery, flush area with water. Put material in suitable, covered, labeled containers. For waste disposal, see section 13 of the SDS.

Environmental precautions: Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Keep formation of airborne dusts to a minimum. Provide appropriate exhaust ventilation at places where dust is formed. Do not breathe dust. Do not breathe dust. Avoid prolonged exposure. When using, do not eat, drink or smoke. Should be handled in closed systems, if possible. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities: Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

#### Biological limit values

No biological exposure limits noted for the ingredient(s).

#### Exposure guidelines

Occupational exposure to nuisance dust (total and respirable) and respirable crystalline silica should be monitored and controlled. Occupational exposure to nuisance dust (total and respirable) and respirable crystalline silica should be monitored and controlled.

#### Appropriate engineering controls

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

#### Individual protection measures, such as personal protective equipment

#### Eye/face protection

If contact is likely, safety glasses with side shields are recommended.

#### Skin protection

- **Hand protection**
  
  Wear appropriate chemical resistant gloves.

- **Other**
  
  Use of an impervious apron is recommended.
Respiratory protection
Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at levels exceeding the exposure limits.

Thermal hazards
Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations
Observe any medical surveillance requirements. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

### Appearance
- **Physical state**: Solid.
- **Form**: Solid.
- **Color**: Not available.

### Odor
- **Odor threshold**: Not available.
- **pH**: Not available.

### Melting point/freezing point
- **Initial boiling point and boiling range**: Not available.

### Flash point
- **Flash point**: Not available.

### Evaporation rate
- **Evaporation rate**: Not available.

### Flammability (solid, gas)
- **Flammability (solid, gas)**: Not available.

### Upper/lower flammability or explosive limits
- **Flammability limit - lower (%)**: Not available.
- **Flammability limit - upper (%)**: Not available.
- **Explosive limit - lower (%)**: Not available.
- **Explosive limit - upper (%)**: Not available.

### Vapor pressure
- **Vapor pressure**: Not available.

### Vapor density
- **Vapor density**: Not available.

### Relative density
- **Relative density**: Not available.

### Solubility(ies)
- **Solubility (water)**: Not available.

### Partition coefficient
- **Partition coefficient (n-octanol/water)**: Not available.

### Auto-ignition temperature
- **Auto-ignition temperature**: Not available.

### Decomposition temperature
- **Decomposition temperature**: Not available.

### Viscosity
- **Viscosity**: Not available.

### Other information
- **Explosive properties**: Not explosive.
- **Oxidizing properties**: Not oxidizing.

10. Stability and reactivity

### Reactivity
The product is stable and non-reactive under normal conditions of use, storage and transport.

### Chemical stability
Material is stable under normal conditions.

### Possibility of hazardous reactions
No dangerous reaction known under conditions of normal use.

### Conditions to avoid
Contact with incompatible materials.
Incompatible materials

Powerful oxidizers. Chlorine.

Incompatibility is based strictly upon potential theoretical reactions between chemicals and may not be specific to industrial application exposure.

Hazardous decomposition products

No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

**Inhalation**

Prolonged inhalation may be harmful.

**Skin contact**

No adverse effects due to skin contact are expected.

**Eye contact**

Direct contact with eyes may cause temporary irritation.

**Ingestion**

Expected to be a low ingestion hazard.

Symptoms related to the physical, chemical and toxicological characteristics

Direct contact with eyes may cause temporary irritation.

Information on toxicological effects

**Acute toxicity**

Not known.

**Skin corrosion/irritation**

Prolonged skin contact may cause temporary irritation.

**Serious eye damage/eye irritation**

Direct contact with eyes may cause temporary irritation.

**Respiratory or skin sensitization**

**Respiratory sensitization**

Not a respiratory sensitizer.

**Skin sensitization**

Due to partial or complete lack of data the classification is not possible. This product is not expected to cause skin sensitization.

**Germ cell mutagenicity**

No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

**Carcinogenicity**

In 1997, IARC (the International Agency for Research on Cancer) concluded that crystalline silica inhaled from occupational sources can cause lung cancer in humans. However in making the overall evaluation, IARC noted that "carcinogenicity was not detected in all industrial circumstances studied. Carcinogenicity may be dependent on inherent characteristics of the crystalline silica or on external factors affecting its biological activity or distribution of its polymorphs." (IARC Monographs on the evaluation of the carcinogenic risks of chemicals to humans, Silica, silicates dust and organic fibres, 1997, Vol. 68, IARC, Lyon, France.) In June 2003, SCOEL (the EU Scientific Committee on Occupational Exposure Limits) concluded that the main effect in humans of the inhalation of respirable crystalline silica dust is silicosis. "There is sufficient information to conclude that the relative risk of lung cancer is increased in persons with silicosis (and, apparently, not in employees without silicosis exposed to silica dust in quarries and in the ceramic industry). Therefore, preventing the onset of silicosis will also reduce the cancer risk..." (SCOEL SUM Doc 94-final, June 2003) According to the current state of the art, worker protection against silicosis can be consistently assured by respecting the existing regulatory occupational exposure limits. May cause cancer. Occupational exposure to respirable dust and respirable crystalline silica should be monitored and controlled. Hazardous by WHMIS criteria.

ACGIH Carcinogens

- **ALPHA-ALUMINA (CAS 1344-28-1)**: A4 Not classifiable as a human carcinogen.
- **SILICA, CRYSTALLINE, QUARTZ (CAS 14808-60-7)**: A2 Suspected human carcinogen.

Canada - Alberta OELs: Carcinogen category

- **SILICA, CRYSTALLINE, QUARTZ (CAS 14808-60-7)**: Suspected human carcinogen.

Canada - Manitoba OELs: carcinogenicity

- **ALPHA-ALUMINA (CAS 1344-28-1)**: Not classifiable as a human carcinogen.
- **SILICA, CRYSTALLINE, QUARTZ (CAS 14808-60-7)**: Suspected human carcinogen.

Canada - Quebec OELs: Carcinogen category

- **SILICA, CRYSTALLINE, QUARTZ (CAS 14808-60-7)**: Suspected carcinogenic effect in humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

- **SILICA, AMORPHOUS, FUMED (CAS 69012-64-2)**: 3 Not classifiable as to carcinogenicity to humans.
- **SILICA, CRYSTALLINE, QUARTZ (CAS 14808-60-7)**: 1 Carcinogenic to humans.

US. National Toxicology Program (NTP) Report on Carcinogens

- **SILICA, CRYSTALLINE, QUARTZ (CAS 14808-60-7)**: Known To Be Human Carcinogen.

Reproductive toxicity

This product is not expected to cause reproductive or developmental effects.
Developmental effects
SILICA, CRYSTALLINE, QUARTZ 0
Developmental effects - EU category
SILICA, CRYSTALLINE, QUARTZ 0
Embryotoxicity
SILICA, CRYSTALLINE, QUARTZ 0
Reproductivity
SILICA, CRYSTALLINE, QUARTZ 0

Specific target organ toxicity - single exposure Not classified.
Specific target organ toxicity - repeated exposure May cause damage to organs through prolonged or repeated exposure by inhalation. Respiratory organs.
Aspiration hazard Not an aspiration hazard.
Chronic effects Causes damage to organs through prolonged or repeated exposure. Prolonged inhalation may be harmful. Prolonged exposure may cause chronic effects.

12. Ecological information
Ecotoxicity The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Persistence and degradability No data is available on the degradability of this product.
Bioaccumulative potential No data available.
Mobility in soil No data available.
Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations
Disposal instructions This product, in its present state, when discarded or disposed of, is not a hazardous waste according to Federal regulations (40 CFR 261.4 (b)(4)). Under RCRA, it is the responsibility of the user of the product to determine, at the time of disposal, whether the product meets RCRA criteria for hazardous waste.
Hazardous waste code Since this product is used in several industries, no Waste Code can be provided by the supplier. The Waste Code should be determined in arrangement with your waste disposal partner or the responsible authority.

14. Transport information
TDG Not regulated as dangerous goods.
IATA Not regulated as dangerous goods.
IMDG Not regulated as dangerous goods.
Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code Not applicable.

15. Regulatory information
Canadian regulations
Controlled Drugs and Substances Act Not regulated.
Export Control List (CEPA 1999, Schedule 3) Not listed.
Greenhouse Gases Not listed.
Precursor Control Regulations Not listed.

International regulations
Stockholm Convention
Not applicable.
Rotterdam Convention
Not applicable.
Kyoto protocol
Not applicable.
Montreal Protocol
Not applicable.
Basel Convention
Not applicable.
