

# SAFETY DATA SHEET

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier	
Trade name or designation of the mixture	KAST-O-LITE 30 LI G PLUS; KAST-O-LITE 30 LI G PLUS WF
Registration number	-
Synonyms	None.
Brand Code	5872, 4491, 788B
Issue date	03-November-2016
Version number	01
1.2. Relevant identified uses o	f the substance or mixture and uses advised against
Identified uses	For Industrial Use Only
Uses advised against	Users should be informed of the potential presence of respirable dust and respirable crystalline silica as well as their potential hazards. Appropriate training in the proper use and handling of this material should be provided as required under applicable regulations.
1.3. Details of the supplier of t	he safety data sheet
Supplier	
Company name	HarbisonWalker International Limited
A dida a se	

Company name	Hardisonwalker Internationa	ai Limited
Address	Dock Road South	
	Bromborough	
	Wirral	
	UK	
Division	United Kingdom	
Telephone	General Phone:	44.(0)151.641.5900
e-mail	REACH@thinkhwi.com	
Contact person	HWI USA	
1.4. Emergency telephone number	+44 (0)151 641 5900	(Office hours 07:30 - 17:00)

# **SECTION 2: Hazards identification**

# 2.1. Classification of the substance or mixture

The mixture has been assessed and/or tested for its physical, health and environmental hazards and the following classification applies.

# Classification according to Regulation (EC) No 1272/2008 as amended

This mixture does not meet the criteria for classification according to Regulation (EC) 1272/2008 as amended.

Hazard summary	Material can be slippery when wet. Prolonged exposure may cause chronic effects. Not classified
	for health hazards. However, occupational exposure to the mixture or substance(s) may cause
	adverse health effects.

# 2.2. Label elements

Label according to Regulation	(EC) No. 1272/2008 as amended
Hazard pictograms	None.
Signal word	None.
Hazard statements	The mixture does not meet the criteria for classification.
Precautionary statements	
Prevention	Observe good industrial hygiene practices.
Response	Wash hands after handling.
Storage	Store away from incompatible materials.
Disposal	Dispose of waste and residues in accordance with local authority requirements.
Supplemental label information	None.
2.3. Other hazards	None known.

# **SECTION 3: Composition/information on ingredients**

### 3.2. Mixtures

# General information

Chemical name	%	CAS-No. / EC No.	REACH Registration No.	INDEX No.	Notes
Cement, Alumina, Chemicals	10 - 20	65997-16-2	-	-	
		266-045-5			
Classification: -					
Aluminium Oxide (Non-Fibrous)	2.5 - 10	1344-28-1	01-2119529248-35-0134	-	
		215-691-6			
Classification: -					

Other components below reportable levels 60 - 80

### List of abbreviations and symbols that may be used above

#: This substance has been assigned Union workplace exposure limit(s).

M: M-factor

PBT: persistent, bioaccumulative and toxic substance.

vPvB: very persistent and very bioaccumulative substance.

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume. Crystalline silica may be present at typical concentrations of 1-2.5%, most of this is encapsulated in the coarse aggregate.

**Composition comments** 

Bentonite contains naturally occurring crystalline silica (not listed in Annex I of Directive 67/548/EEC) in quantities less than 6%.

# **SECTION 4: First aid measures**

**General information** Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

### 4.1. Description of first aid measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Rinse with water. Get medical attention if irritation develops and persists.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
4.2. Most important symptoms and effects, both acute and delayed	Exposure may cause temporary irritation, redness, or discomfort.
4.3. Indication of any immediate medical attention and special treatment	Treat symptomatically.

and speci needed

# **SECTION 5: Firefighting measures**

General fire hazards	Not available.
5.1. Extinguishing media Suitable extinguishing media	Use fire-extinguishing media appropriate for surrounding materials.
Unsuitable extinguishing media	Not available.
5.2. Special hazards arising from the substance or mixture	Not available.
5.3. Advice for firefighters Special protective equipment for firefighters	Not available.
Special fire fighting procedures	Not available.

# **SECTION 6: Accidental release measures**

### 6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel	Keep unnecessary personnel away. section 8 of the SDS.	Material can be slippery when wet. For personal protection, see
For emergency responders	Keep unnecessary personnel away.	Use personal protection recommended in Section 8 of the SDS.

6.2. Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
6.3. Methods and material for containment and cleaning up	Stop the flow of material, if this is without risk. Following product recovery, flush area with water.
6.4. Reference to other sections	For personal protection, see section 8 of the SDS. For waste disposal, see section 13 of the SDS.
CECTION 7. Usedline and	

# **SECTION 7: Handling and storage**

7.1. Precautions for safe handling	Keep formation of airborne dusts to a minimum. Provide appropriate exhaust ventilation at places where dust is formed. Do not breathe dust. Do not breathe dust. Avoid prolonged exposure.
7.2. Conditions for safe storage, including any incompatibilities	Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).
7.3. Specific end use(s)	Not available.

# **SECTION 8: Exposure controls/personal protection**

# 8.1. Control parameters

### **Occupational exposure limits**

UK. EH40 Workplace Expo Components	Туре	Value	Form
Aluminium Oxide (Non-Fibrous) (CAS 1344-28-1)	TWA	4 mg/m3	Respirable dust.
Amorphous silica (CAS 7631-86-9)	TWA	10 mg/m3 6 mg/m3	Inhalable dust. Inhalable dust.
Cristobalite (CAS 14464-46-1)	TWA	2.4 mg/m3 1 fibers/mL	Respirable dust. Fiber.
Quartz (SiO2) (CAS	TWA	5 mg/m3 0.1 mg/m3 0.1 mg/m3	Fiber. Respirable. Respirable.
14808-60-7) Titanium dioxide (CAS 13463-67-7)	TWA	4 mg/m3	Respirable.
13103 07 77		10 mg/m3	Inhalable
iological limit values	No biological exposure limits noted f	or the ingredient(s).	
lecommended monitoring procedures	Follow standard monitoring procedu	res.	
Derived no effect levels DNELs)	Not available.		
redicted no effect oncentrations (PNECs)	Not available.		
xposure guidelines	Occupational exposure to nuisance of be monitored and controlled. Occupa respirable crystalline silica should be	ational exposure to nuisance du	
3.2. Exposure controls			
ppropriate engineering ontrols	Good general ventilation (typically 10 be matched to conditions. If applical engineering controls to maintain airb limits have not been established, ma	ble, use process enclosures, loc porne levels below recommende	al exhaust ventilation, or other ed exposure limits. If exposure
-	es, such as personal protective equ	-	
General information	Personal protection equipment shoul with the supplier of the personal pro		EN standards and in discussion
Eye/face protection	Wear safety glasses with side shields	s (or goggles).	
Skin protection			
- Hand protection	Wear appropriate chemical resistant	gloves.	
- Other	Wear suitable protective clothing.		
Respiratory protection	Use a NIOSH/MSHA approved respiration exceeding the exposure limits.	ator if there is a risk of exposur	e to dust/fume at levels
Thermal hazards	Wear appropriate thermal protective	alath:	

Hygiene measures

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Environmental exposure controls

Environmental manager must be informed of all major releases.

# **SECTION 9: Physical and chemical properties**

# 9.1. Information on basic physical and chemical properties

Appearance **Physical state** Solid. Form Solid. Colour Not available. Odour Not available. **Odour threshold** Not available. Not available. pН Melting point/freezing point Not available. Initial boiling point and Not available. boiling range Flash point Not available. Not available. **Evaporation rate** Flammability (solid, gas) Not available. Upper/lower flammability or explosive limits Flammability limit - lower Not available. (%) Flammability limit -Not available. upper (%) Vapour pressure Not available. Vapour density Not available. **Relative density** Not available. Solubility(ies) Solubility (water) Not available. Solubility (other) Not available. Not available. **Partition coefficient** (n-octanol/water) Auto-ignition temperature Not available. **Decomposition temperature** Not available. Viscosity Not available. **Explosive properties** Not explosive. **Oxidising properties** Not oxidising. 9.2. Other information No relevant additional information available.

# **SECTION 10: Stability and reactivity**

10.1. Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
10.2. Chemical stability	Material is stable under normal conditions.
<b>10.3. Possibility of hazardous reactions</b>	No dangerous reaction known under conditions of normal use.
10.4. Conditions to avoid	Contact with incompatible materials.
10.5. Incompatible materials	Acids. Powerful oxidizers. Chlorine. Incompatibility is based strictly upon potential theoretical reactions between chemicals and may not be specific to industrial application exposure.
10.6. Hazardous decomposition products	No hazardous decomposition products are known.

# **SECTION 11: Toxicological information**

SECTION 11: Toxicological information		
General information	Occupational exposure to the substance or mixture may cause adverse effects.	
Information on likely routes of exposure		
Inhalation	Prolonged inhalation may be harmful.	
Skin contact	No adverse effects due to skin contact are expected.	
Eye contact	Direct contact with eyes may cause temporary irritation.	
Ingestion	May cause discomfort if swallowed. However, ingestion is not likely to be a primary route of occupational exposure.	
Symptoms	Exposure may cause temporary irritation, redness, or discomfort.	
11.1. Information on toxicolog	lical effects	
Acute toxicity	Not known.	
Skin corrosion/irritation	Due to partial or complete lack of data the classification is not possible.	
Serious eye damage/eye irritation	Due to partial or complete lack of data the classification is not possible.	
Respiratory sensitisation	Due to partial or complete lack of data the classification is not possible.	
Skin sensitisation	Due to partial or complete lack of data the classification is not possible.	
Germ cell mutagenicity	Due to partial or complete lack of data the classification is not possible.	
Carcinogenicity	In 1997, IARC (the International Agency for Research on Cancer) concluded that crystalline silica inhaled from occupational sources can cause lung cancer in humans. However in making the overall evaluation, IARC noted that "carcinogenicity was not detected in all industrial circumstances studied. Carcinogenicity may be dependent on inherent characteristics of the crystalline silica or on external factors affecting its biological activity or distribution of its polymorphs." (IARC Monographs on the evaluation of the carcinogenic risks of chemicals to humans, Silica, silicates dust and organic fibres, 1997, Vol. 68, IARC, Lyon, France.) In June 2003, SCOEL (the EU Scientific Committee on Occupational Exposure Limits) concluded that the main effect in humans of the inhalation of respirable crystalline silica dust is silicosis. "There is sufficient information to conclude that the relative risk of lung cancer is increased in persons with silicosis (and, apparently, not in employees without silicosis exposed to silica dust in quarries and in the ceramic industry). Therefore, preventing the onset of silicosis will also reduce the cancer risk" (SCOEL SUM Doc 94-final, June 2003) According to the current state of the art, worker protection against silicosis can be consistently assured by respecting the existing regulatory occupational exposure limits. Occupational exposure to respirable dust and respirable crystalline silica should be monitored and controlled. Risk of cancer cannot be excluded with prolonged exposure.	
Reproductive toxicity	Due to partial or complete lack of data the classification is not possible.	
Specific target organ toxicity - single exposure	Due to partial or complete lack of data the classification is not possible.	
Specific target organ toxicity - repeated exposure	Due to partial or complete lack of data the classification is not possible.	
Aspiration hazard	Due to partial or complete lack of data the classification is not possible.	
Mixture versus substance information	No information available.	
Other information	This product has no known adverse effect on human health.	
SECTION 12: Ecological information		
	Development to be added to be advecting with the second part for being days to the second to	

12.1. Toxicity	Based on available data, the classification criteria are not met for hazardous to the aquatic environment.
12.2. Persistence and degradability	No data is available on the degradability of this product.
12.3. Bioaccumulative potential	No data available.
Partition coefficient n-octanol/water (log Kow)	Not available.
Bioconcentration factor (BCF)	Not available.
12.4. Mobility in soil	No data available.
12.5. Results of PBT and vPvB assessment	Not available.
12.6. Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

# **SECTION 13: Disposal considerations**

# **13.1. Waste treatment methods**

Residual waste	Not available.
Contaminated packaging	Not available.
EU waste code	Not available.
Disposal methods/information	This product, in its present state, when discarded or disposed of, is not a hazardous waste according to Federal regulations (40 CFR 261.4 (b)(4)). Under RCRA, it is the responsibility of the user of the product to determine, at the time of disposal, whether the product meets RCRA criteria for hazardous waste.

# **SECTION 14: Transport information**

### ADR

14.1. - 14.6.: Not regulated as dangerous goods.

### RID

14.1. - 14.6.: Not regulated as dangerous goods.

### ADN

14.1. - 14.6.: Not regulated as dangerous goods.

## IATA

14.1. - 14.6.: Not regulated as dangerous goods.

# IMDG

14.1. - 14.6.: Not regulated as dangerous goods.

Not applicable.

14.7. Transport in bulk according to Annex II of Marpol and the IBC Code

# **SECTION 15: Regulatory information**

# 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture EU regulations Regulation (EC) No. 2037/2000 on substances that deplete the ozone layer, Annex I Not listed. Regulation (EC) No. 850/2004 on persistent organic pollutants, Annex I Not listed. Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 1 as amended Not listed. Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 2 as amended Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex I, Part 3 as amended

Not listed.

Regulation (EU) No. 649/2012 concerning the export and import of dangerous chemicals, Annex V as amended Not listed.

Regulation (EC) No. 166/2006 Annex II Pollutant Release and Transfer Registry Not listed.

Regulation (EC) No. 1907/2006, REACH Article 59(10) Candidate List as currently published by ECHA Not listed.

### Authorisations

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended Not listed.

### **Restrictions on use**

**Regulation (EC) No. 1907/2006 Annex XVII Substances subject to restriction on marketing and use** Not regulated.

Regulation (EC) No. 1907/2006, REACH Annex XIV Substances subject to authorization, as amended Not listed.

Directive 2004/37/EC: mutagens at work	on the protection of workers from the risks related to exposure to carcinogens and	
Not listed.		
Other EU regulations		
Directive 2012/18/EU on major accident hazards involving dangerous substances, as amended		
Not listed.		
Other regulations	The product is classified and labelled in accordance with Regulation (EC) 1272/2008 (CLP Regulation) as amended. This Safety Data Sheet complies with the requirements of Regulation (EC) No 1907/2006, as amended.	
National regulations	Follow national regulation for work with chemical agents.	
15.2. Chemical safety assessment	No Chemical Safety Assessment has been carried out.	

# **SECTION 16: Other information**

List of abbreviations References	Not available. Not available.
Information on evaluation method leading to the classification of mixture	Not available.
Full text of any H-statements not written out in full under Sections 2 to 15	None.
Revision information	Product and Company Identification: Product and Company Identification
Training information	Not available.
Disclaimer	This information is based on our present knowledge on creation date. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.
